»**Product name:** Little Decker

»**Description:** This baby-chair is part of Prefabdesign, the furniture collection with designs that are sold as a kit. All parts are kept together by wooden connections. After all connectoins are cut the parts can be painted. After this the little chair can be assembled. By the use of 2 screws and a bit of glue it can be fixed into one solid chair. Because of the simple production-method, the chair can be of low cost and there won't be any sharp edges on the frame.
Little Decker is accompanied by a little table: Little Deck.
